

SPFX Firing Button

Mil-spec fully sealed dust-tight water-tight

Rated for 10amps @ 115VAC/28VDC • IP68 immersion • 500,000 cycles

**** \$125 plus shipping ****

A 3lb momentary spring provides a solid mechanical snap feel and prevents against unintended actuation. Rated mechanical life of 500,000 cycles. Built into a polycarbonate tube for easy handheld operation.

Standard setup is a 5ft 16/2 cable length to bare wire leads (with Wago 221 Lever-nut connectors) allowing easy splicing into any circuit.

Custom cable lengths or connectors are available upon request.
